### Hint Canadian Destroyer Hit Hard by Bombs

OTTAWA, Nov. 5.—(CP)—  
Strong indication one of Canada's  
destroyers suffered heavy damage  
in a recent attack by 20 German  
bombers off the coast of  
Spain was given today in a naval  
press release.

There had been no official  
announcement of damage to the  
destroyer—the largest type of ship in  
the Royal Canadian Navy—but to  
day's statement said a 2,000-pound  
bomb "ripped through the port  
bulkhead of the signal room, and  
cracked out the starboard side,  
"exploding at the water line."

In bombing terminology, explosion  
close to a ship is known as a  
"near miss," and often the consequences  
were less than damage.  
Since the navy's practice is to  
announce sinking rapidly, it was  
assumed the ship was lost.

Commander of the first

the beaches of Sicily, Lt.  
George Edgar Allan, son of  
Dr. and Mrs. Norman Allan,  
1110 86 avenue, is now  
home on foreign service leave.  
Lt. Allan described the Sicilian  
campaign as a "marvellous show,  
the best organized job the Allies  
have pulled." His most thrilling  
moment during the campaign  
occurred when the landing barges  
were being lowered from the  
transport ships at night.  
A searchlight on the shore picked  
up the barges and held them  
in its glare for a full minute, then  
it went out. Lt. Allan said that  
he was convinced that they had been  
discovered and was expecting a  
bomb reception as the landing barges  
approached the beaches. However  
the barges had all been landed  
and beached established before their  
arrival was discovered.  
Sicily, according to Lt. Allan, was  
not encountered and the enemy turned  
a blind eye on them which was finally  
destroyed by fire from a Dutch  
sloop at sea.  
Lt. Allan said he would never  
forget the day he landed on Sicily.

### Dies at Toronto

TORONTO, Nov. 5.—(CP)—Sir  
Robert Falconer, 76, widely-known  
educationalist and president of the  
University of Toronto until his  
retirement in 1932, died at his home  
here last night after a brief illness.  
Sir Robert had been ill only a  
few days, although he had been in  
ill health since 1932.  
He studied at the University of  
Edinburgh, and at Leipzig, Berlin  
and Marburg, subsequently entering  
the ministry of the Presbyterian  
Church in 1904.  
In 1905 he was appointed lecturer  
in New Testament Greek at Platteau  
College, Halifax, becoming  
professor in 1909 and principal in  
1914. He was knighted in 1917.

MOSCOW, Nov. 5.—A powerful  
Red Army, striking out in a new  
offensive on the west bank of the  
Dnieper river, stormed and cap-  
tured the northwestern suburbs  
of Kiev, Pabst-Volynia and Gor-  
yanka, today.

The Berlin radio said tonight  
that Russian forces had rammed  
their way into the eastern Crimea  
from Kerch, but claimed they  
had been beaten back from the city.  
The Germans say the Russians have  
barricaded on two sides of the  
city.

The Exchange Telegraph dispatch  
from Istanbul quoted Swiss reports  
that German forces evacuating the  
Crimea have begun to arrive on  
the Bulgarian Black Sea coast.

The Russians have broken through  
brought Soviet troops and tanks  
within five miles of Kiev proper  
and extended the Soviet bridgehead  
above Kiev eight miles inland from  
the west bank of the Dnieper.

west of the city, the Russians

seize the two towns, which lie on  
the main railway running north

### Vokes Likely 1st Division Commander

### Gen. Simonds to Lead Armored Division;

### Hint More Canadians for Mediterranean

### By Ross Munro

LONDON, Nov. 5.—(CP)—  
Amid speculation that more  
Canadians may move from  
Britain into the central Med-  
iterranean theatre, Maj.-Gen.  
Guy Simonds has been pro-  
moted to command an armored  
division and it is taken for  
granted that command of the  
Canadian 1st Division in Italy  
falls to 38-year-old Maj.-Gen.  
Chris Vokes of Winnipeg and  
Ottawa.

Youngest Canadian general,  
Vokes has been promoted from  
the rank of brigadier to acting  
major-general. In the Sicily  
campaign, serving under Gen. Sir  
Bernard Montgomery, 2nd In-  
fantry Brigade, composed of the  
Princess Patricia's Canadian  
Light Infantry, the Canadian  
Armoured Regiment and the Seaforth  
Highlanders of Canada, and won  
the D.S.O.

The change-over regarding Gen.  
Simonds gives rise to unofficial  
speculation that possibly more  
Canadians may move to the Med-  
iterranean theatre—possibly in-  
cluding an armored division, which  
Gen. Simonds could lead.

MAJ.-GEN. SIMONDS  
Gen. C.R.S. Stein of Quebec as an  
armored division commander, it is  
understood, and Gen. Stein is to  
receive a new appointment. Gen. Stein,  
an engineer, is 46. He is retiring  
from command of an armored di-  
vision in England which he headed  
since early this year.

Military authorities here con-  
sider Gen. Simonds' appointment  
a definite promotion and the re-  
sult of brilliant handling of his  
former command, the Canadian  
1st Division, in Sicily.

Gen. Simonds, who is 40 years  
of age, has not had an armored  
command although in his staff ap-  
pointment as Canadian Corps and  
Canadian Army headquarters he  
has had experience in dealing with  
the armored divisions.

### STUDENT OF TANKS

He also has been a student of tank  
fighting and proved in Sicily he  
could employ tanks to advantage  
even in close, mountainous coun-  
try, where he had a Canadian tank  
regiment under his personal com-  
mand.

Last spring Gen. Simonds spent  
the weeks with the Canadian Corps  
during its push north from Mar-  
telli towards Sesto and Tume-  
n. While there he learned the

LONDON, Nov. 5.—(AP)—  
Germany has suffered 2,  
700,000 casualties, nearly 1,  
000,000 of them killed and  
captured, during four months  
of a Red Army offensive  
which threatens to hurl the  
Nazis army out of Russia. This  
was declared by Gen. G. G.  
Stalin, supreme Soviet leader, in  
an announcement said last night.

Since July 5, when the Ger-  
mans "broke disastrously" in  
their own brief offensive in the  
Orel-Kursk-Belgorod salient, the  
Nazis have suffered 2,000,000  
men and captured 900,000, half  
of them wounded, said the Soviet  
war review.

The review, broadcast by Moscow  
and recorded by the Soviet monitor,  
was repeated three times by the  
radio and followed by an "Ode to  
Russia," the national anthem of  
Soviet Union, sung by the Red  
Army choir.

### 9,100,000 CASUALTIES

On the basis of previous official  
Moscow reviews, the Germans have  
suffered 9,100,000 casualties since  
they began the most sanguinary  
phase of their drive against the  
Russians June 22, 1941.

With Soviet fighter planes al-

Rumanian, Polish and Baltic state  
borders, the special Moscow re-

Romanian representatives of  
District 18 of the United Mine  
Workers of America, told The

union delegation which came  
here to negotiate a settlement  
of the western coal mine  
strike expects to leave for the  
west tonight to place a govern-

members of the union.

Mr. Lovett declined to reveal  
the nature of the proposal but  
said the government has asked  
the union to place a govern-  
ment proposal before a  
members of the union.

It was assumed one of the govern-  
ment's requirements was that  
the men return to work before any  
definite wage concession is granted.

The union delegation, comprising  
Mr. Lovett and three other district  
officials, is expected to meet Labor  
Minister Mitchell for further dis-

It was learned that the prole-

night, was not in a final form but  
would be presented to the union  
which the government would be

Columbia workers back into the  
mines.

A special cabinet meeting is  
scheduled for this afternoon. Mr.

### Miners' Strike

### In This Area

### Is Unchanged

Edmonton moved into fifth day  
of the coal strike Friday, with  
conditions mostly "unchanged."

The situation was, being con-  
tinued, stockpiles of coal at large  
industrial plants continued to  
deplete, but the strike of large  
and small quantities of the strike-  
bound fuel did their utmost to  
conserve available supplies.

Peter Collins, secretary of Dis-  
trict No. 18 of the United Mine  
Workers of America, said, "there  
was nothing new on the strike after  
Friday."

"I'm hoping for a settlement, as  
far as the coal strike is con-  
cerned, but the situation is un-  
changed. This dispute is between the government  
and the miners and is not localized  
in any area."

"We have expected some word from  
the government today," Mr. Col-  
lin continued. "I don't think the  
strike will be ended in any long  
time. We're waiting for word."

No word has been received from  
the government regarding the  
needed in emergencies, at insti-  
tutional level.

## Delegates Get Proposal For Ending Strike

Continued from Page One

Livett said he thought it likely the conference with Mr. Mitchell would be held before that meeting.

### PLAN NOT KNOWN

It was not apparent whether the plan offered the miners an immediate cessation toward the demands for a wage increase of a day a week and one-half a day a week, or whether it was a means whereby they could submit a list of their demands without recourse to the National War Labor Board.

One theory which had support in well-informed quarters was that the powers of the Royal commission already appointed to investigate wage rates in the mines would be extended, enabling it to establish new rates.

The strike call which halted work in the mines five days ago when the union was unsuccessful in its demands to have the commission given authority to act on its own rather than by reporting to the labor minister and the national board.

By British United Press

Until last night the two factions were said to have been working in their efforts to arrive at a solution which would end the strike and British Columbia miners back to the 50,000 colliers they described as 12,000 a month. The union, a three-fifths of the dominion's coal production.

Livett called the men out on strike after accusing the government of "ridiculing" the demands for a 52 a day wage increase, time and a half for the strike, five day worked and two weeks holidays with pay.

In settlement of the strike by the delegation would be possible. He pointed out, however, that the union took the vote on the strike, and any proposal to settle it must be voted on by the union.

He did not want to go back with a recommendation that is liable to be turned down," he stated emphatically. "Only by a recommendation of a committee like ours ever turned down."

Livett said he did not want the impression to grow that he and his companions were in the hands of their treatment by Mitchell. "Everyone has been doing their best," he stated.

Both the union delegates and labor department officials professed ignorance concerning the time when today's meeting would start, but it was expected to be held where it would be held there.

forget the day the ships were approaching Sicily. Most of the clear visible miles out to sea and away from the shore, the landing of Allied troops was being observed. "I have seen the most impressive sight I have seen," he said.

ATTACHED TO R.N.

On being sent overseas, Lt. Allan Allen, a Canadian, was attached to the Royal Navy and studied combined operations tactics in the waters of England. He was then sent to the landing operations in the harbor of North Africa, where his opposition was encountered near Algiers where his ship landed.

After the troops were landed in North Africa the ships were loaded with Italian prisoners who were taken to England.

Only twenty-one years of age, Lt. Allen has been overseas since March 1942. In Scotland and England he studied the special combined operations tactics and was first ship to North Africa.

After that campaign he took part in exercises in the Red Sea where the British High Seas were trained for the Sicilian attack.

Born in Edmonton, Lt. Allen was educated at Garfield and Northwood high schools and attended the University of Alberta for one year prior to his enlistment in the Canadian army in 1940.

He was promoted to lieutenant in 1941, and was commissioned as a subaltern in the Royal Canadian Air Force in 1942.

### LOOKS GOOD

"Canada looks great to me," he said, "but my first job was to defend a horrible disappointment. Our ship was the last of the convoys to be attacked by the enemy in the eastern Canadian port and we had made it through the attack that the first thing we were given to do was to go to a restaurant and get a nice lunch."

## Nippon Cruiser, Four Destroyers Sunk in Battle

By BYRON C. TAVES

Exclusive to The Edmonton Bulletin. Copyright, 1943, by Byron C. Taves. ALLIED HEADQUARTERS, Southwest Pacific, Nov. 5.—Nine Japanese warships were sent to the bottom or damaged Monday night when U.S. naval gun

crushed enemy attempt to halt the Bougainville invasion, a communique reported today.

The toll was based on preliminary reports of the 30-minute battle, indicating it may turn out to be an even greater American victory when full details are disclosed.

Not an American vessel was lost although some were damaged and there were casualties in the fighting which took place only 40 miles off the beachhead on Bougainville, northwestern of the Solomons, by U.S. Marines only 12 hours before.

A previous communique had disclosed the engagement but gave no details. It was fought while the Japanese were still unloading at Bougainville. The next day the warships brought down 17 of 67 Japanese planes that attacked them.

One cruiser and four destroyers were sunk and two cruisers and two destroyers were damaged. Tuesday Allied planes in a heavy raid on Rabaul, by enemy base on New Britain, had sunk or damaged three enemy destroyers and two cruisers.

### It Isn't Over Yet

That Edmonton's quota of the Fifth Victory Loan has been made does not close the door against residents of the city who have not yet bought bonds, or who want to buy more. Nor does it lessen the advisability of their doing so. The bonds are still on sale. The wisdom of securing some of them is unimpaired. The quota was a minimum mark, not a ceiling, and it is not to be exceeded. It is possible that not all the campaign districts in Canada will be able to reach their allotments, and any surplus should be re-used, or sold in other districts. A contribution of \$1,000,000 from the funds of the Provincial Government put Edmonton at the top. Such advantages do not come to many other centres; and this fact carries an urge for Edmonton people to keep on buying until the bull ring is empty.

There are known to be hundreds or thousands of Edmonton men "mucking it" on the rain-soaked battlefield in Italy. They are not only not over the hurdle but cleared it in good style. It is worth buying an extra bond to send them their heartening message.

### Buy a Poppy

Buy a Poppy tomorrow. Buy it as a token of remembrance of the Canadians who gave their lives in the first great war and of appreciation of those who are now carrying the fight on. But buy it also because the Poppies are made by returned men whose disabilities handicap them in earning a living, and because the proceeds from the sale of the Poppies go to the relief of the families of our fighting men in the former and the present war.

There is need this year that the proceeds be large, because difficulties are already arising through the demobilization of men and women in the service. Last year assistance was given to 341 persons through the Edmonton branch of the fund. The number is bound to be larger as time passes. Sales must be made, and the proceeds, for this is one of the obligations which have to be met by voluntary contributions. The selling campaign is sponsored by the Canadian League with the active support of the I.O.D.E. and military units. The fund is administered by a board of trustees composed of well-known men. themselves veterans, and it is their duty to distribute assistance according to need. The sales tomorrow should break all records.

### We Can't Let Them Down

The men of Canada's 1st Division, who are fighting in the Italian campaign, are the mountains in Italy, have subscribed \$400,000 to the Fifth Victory Loan. That is a direct, and peculiarly pointed, challenge to the men at home. If Canadians anywhere are entitled to feel that they are doing their bit that surely is the right of these men. They are helping to knock gaps in Rome's defence line. When the going is tough. They are wet, tired, perhaps often hungry. Literally every forward step they take is in the direction of being blasted by Nazi guns or blown up by buried mines.

They are holding their own with comrades from whom the war has not seen better soldiers, against an enemy brave, resourceful, skilled in all the tricks of combat. Yet amid all this, they are in the line of keeping solid the financial base of Canada's war effort, and in the first four days of the campaign they made up this splendid contribution to the war chest.

We can't let those men down. When the books are closed world must be flashed to them—and to our fighting men at the front—where that the people at home have backed them with their dollars to the full amount asked for. Canada can send no more cheering word than that to its sons on land and sea and in the air, to whom "send the victory" means something it does not mean to get men. And to those who live securely far from the places where bullets fly.

### There Are Limits

President Roosevelt, as President and as Commander-in-Chief, ordering the striking coal miners in the United States to get back to work Wednesday morning. But they didn't go. That put them technically in a state of mutiny. They were in passive resistance to the order of the United States government.

This fact should signify something to them in Canada who have been hearing their own Government, though applying compulsion on a wider variety of occasions during the last four years. An order-in-council, these critics seem to think, is no assurance and certain instrument to break a bottle-neck, whether in the raising of men, in the handling of wartime labor, or in imposing forced loans of money. The Ottawa critics range all the way from Socialists to the other extreme in political thought.

All the Government needs to do, they have been assured, is to order the army or into the packing plants or into the coal mines, or to lend interest-free money—and the shortage would be automatically met. It does not.

What did not happen in the coal mines of the United States on Wednesday morning

ing is something our Canadian out-and-out compulsionists should think about. The situation would be the same in Germany or in Russia or in Japan—the miners there would have got back on the job—or else. But it could arise in Canada, and any other country where people enjoy the rights and privileges of democratic rule.

Totalitarian methods are not workable in such countries, except to the degree that the public are willing to permit them to be employed in times of national emergency. There are limits beyond which freedom will not be yielded. It is strange to Canadian regimentalists they ought to get acquainted with it.

Swedish travellers report that a state of emergency has been proclaimed in Berlin and some other Reich centres because of disturbances. Herr Goebbels has already explained to what factor the unrest is chiefly due—namely, the "saturation" bombing that is systematically reducing the cities to rubble. The Swedish reports are not official, but from what Dr. Goebbels has been saying the state of emergency seems to have been proclaimed by Himmler edicts.

Though known for some time to be in ill-health, news of the death of Mr. Alfred Speakman, M.L.A., comes with the shock of the unexpected, for he had been actively engaged in his public duties up to the previous evening. Mr. Speakman was a pioneer of the Red Deer district, where he homesteaded more than forty years ago. For fourteen years he represented that district in the Dominion parliament, and was elected as Red Deer's member of the provincial legislature in 1940. He has resided in Edmonton for several years and was widely known in the city. He was a member of the federal and provincial legislatures, and his name and figure have been of course familiar. Over an exceptionally wide range of friendly acquaintances there he had been known as a very likeable man and a capable public representative.

### Looking Backward

From The Bulletin Files

1893: 50 Years Ago

Not enough snow for sleighing.  
Mr. Closson of the H.B. store leaves tomorrow for Brandon.

A meeting will be held Friday evening in the Masonic hall on the subject of "The Lodge of the Royal Temple of Temperance."

Shortly before one o'clock on Saturday the fire bell rang. It was necessary to put the engine back in the fire house.

On Friday, one of the two underground fire tanks in front of the Imperial Bank crashed in after the explosion had been put out.

W. Bawson arrived Thursday from Calgary. The Imperial Bank has received a burglar proof steel safe weighing 4,300 pounds.

W. B. Breerton arrived from Egg Lake on Saturday.

T. Munier returned Saturday from the east, where he had gone in charge of the Edmonton district of the Red Cross.

R. K. Steele of Beaver Lake was in town this week with grain to be ground.

1903: 40 Years Ago

Messrs. Dickson and Coulter have put before the Edmonton council a scheme for the establishment of a large laundry in the city.

Water and sewer trenches are being dug down Fourth street.

During the year 91 new post offices have been opened west of Winnipeg.

The C.P.R. next summer will run two passenger trains every day between Edmonton and Calgary.

A submerged wreck discovered in Berkeley Sound, B.C., may be the lost destroyer Conqueror.

Mr. C. Gregory of the British Columbia government has taken over the job of being ambassador to all babies of the Kaiser.

A rumor is current in Europe that the Kaiser has cancer.

1913: 30 Years Ago

A proposal has been made to sell McKernan's Lake to the city for a park.

London: Lord Chancellor Haldane has proposed that the Imperial Privy Council be made a movable court, holding sessions in the overseas dominions.

Provisional contracts under construction in Edmonton will provide accommodation for 4,116 additional scholars.

## Bertie McCormick Wants to Invade French Canada

Prize Isolationist Would Operate Chain Papers in Quebec

By HAROLD L. WEIR  
It has been revealed that Col. Bertie McCormick of Chicago, who has been introduced in this space, recently made overtures for the purchase of a large chain of newspapers and radio stations in French Canada.

Whether the deal was consummated or not, it is Government. If that fact is strange to Canadian regimentalists they ought to get acquainted with it.

Over an exceptionally wide range of friendly acquaintances there he had been known as a very likeable man and a capable public representative.

Swedish travellers report that a state of emergency has been proclaimed in Berlin and some other Reich centres because of disturbances. Herr Goebbels has already explained to what factor the unrest is chiefly due—namely, the "saturation" bombing that is systematically reducing the cities to rubble. The Swedish reports are not official, but from what Dr. Goebbels has been saying the state of emergency seems to have been proclaimed by Himmler edicts.

Though known for some time to be in ill-health, news of the death of Mr. Alfred Speakman, M.L.A., comes with the shock of the unexpected, for he had been actively engaged in his public duties up to the previous evening. ### Miners' Strike

Editor, Bulletin: What is a strike? It is usually the last recourse of dissatisfied workers, most of whom are worthy and responsible people. It is a strike when they think it is a strike.

It is easy for you to form opinions for or against, but it is better for the miners to be asked to stop before we express our opinions.

I was born in a coal mining town in England. I know a good deal about the life. I am in full sympathy with the claims of the miners in this unfortunate strike.

They are asking \$5.78 per day and time and a half for Saturday. This averages \$6.26 per day for 30 days, or \$187.97 per week. There are 30 days in a year. Subtract \$25 days they work every working day, they were \$18.28 per year.

It is that much for the hard, dangerous, dirty, back-breaking job. They are asking for a better life. They will never get it out of those who have the money. They are asking for a better life.

They are asking for a better life. They are asking for a better life. They are asking for a better life.

They are asking for a better life. They are asking for a better life. They are asking for a better life.

They are asking for a better life. They are asking for a better life. They are asking for a better life.

They are asking for a better life. They are asking for a better life. They are asking for a better life.

They are asking for a better life. They are asking for a better life. They are asking for a better life.

They are asking for a better life. They are asking for a better life. They are asking for a better life.

They are asking for a better life. They are asking for a better life. They are asking for a better life.

They are asking for a better life. They are asking for a better life. They are asking for a better life.

They are asking for a better life. They are asking for a better life. They are asking for a better life.

They are asking for a better life. They are asking for a better life. They are asking for a better life.

# They DIED That WE might live

*Remember the St. Croix and Others Before Them. Those Who Laid Down Their Lives on the Sands of Libya and Italy. That Gallant Band of Airmen Over Europe!*

Approaching Armistice Day, 1943, brings no end to the battles raging on the many fronts. Cannons and rifles go about their deadly business, bringing screaming, sudden death to thousands... bringing pain and writhing anguish to countless of others. The lads who sleep in "Davy Jones' Locker," who lie dead in the mud, have found peace 'midst "war's rattle," but who among them would not exchange peace for a chance to fight again... and for the chance to return home after the war? "War loves to seek its victims in the young," who relinquish so much of life... un-lived!

They went to war gladly—those lads in navy blue, those khaki-clad youngsters, those falcon youths of the sky—buying our freedom with THEIR blood, so let's give MORE GLADLY, GIVE MORE FREELY... and bring those who are left home sooner! Are not

the things asked of us small in comparison to the price our men are paying for victory... and all that it brings? We think of them fighting, but do we know as they do, that "fighting" is "killing and being killed"? Let's really put our shoulders to the War-Wheel! Let's work harder, buy more bonds... and really co-operate in any and every way to bring the war to a more imminent finish!

Today you have the opportunity to add momentum to the victory push by investing every cent you can spare in Canada's Fifth Victory Loan. It is not enough to say you have bought in previous war loans, to be complacent over the small part you've played. Wars are costly in monies and human sacrifice. Our boys are giving their lives. You are only asked to lend your money. The MOST you can buy is the LEAST you can do. Won't you BUY that extra bond tomorrow?

## Four Ex-Black Hawk Stars Training With Currie Army

By PTE. TOM FOLEY  
CALGARY, Nov. 5.—Chicago Black Hawks, a hockey club of note that does quite well in an eastern loop commonly referred to as the N.H.L., must now be recognized in their rightful position as the farm team for the Currie Army. This has been kept rather quiet in the past—but its reached the stage where it is too obvious for secrecy.

This year, when the Curries go into action they have no less than four former Hawk graduates on their roster.  
For Cpl. Ken Stewart and Cpl. Alex Kalela, it's the second year in the big line company of senior service hockey. You will remember Kalela who last year, his rookie year in service hockey, won the scoring title of the Alberta loop. He came up to Currie after standing fourth in the N.H.L. rookie awards for Chicago the preceding year.

New two more Hawk graduates are in the army here. Pte. Bob Carse, an Edmonton lad who has spent several seasons with the Hawks and Max Bentley, a speedier, who stood second in the N.H.L. scoring race and won the Lashy Brier trophy last winter.  
Cpl. Ron Wastley, the Vancouver Golden Gloves champ who is boxing instructor at Camrose, writes that he has a sixteen boxing crew in training at the northern centre—and is ready to take on any service boxing team. So you can figure on a Camrose-Currie boxing card about six weeks ago, when Currie Cpl. Jimmy Moffat should have his gladiators about ready to go.

It's not every common ordinary corporal who can spend the day telling a bunch of officers what to do and what not to do—but here are three of them that do. That's Cpls. Alex Kalela, Willy Rinaldi and Doug Lane. They are instructors in six-pounder and three-inch mortar courses, and their students are officers, no less.  
Pte. Ed McArdely, who saw a lot of pucks in the Red Dore last season, looked so good in the first practice when he stepped between the Currie pipes, that the army railbirds got worrying right away about the net-minding vacancy left when Frank McCool was discharged.

Take it or leave it—They say Edmonton's L.C. Larry Orms, second sacker for the Currie Army's Flyers, has had nine this summer is putting in his bid as a hockey official this winter.

**Regina Will Get Grid Series Game**  
WINNIPEG, Nov. 5.—(CP)—Coach Dean Griffing of Regina all services. Roughriders' last last night the second game of the western football championship with Winnipeg R.C.A.F. Bombers, defending champions, will be played in Regina Nov. 11.

The Bombers have agreed to play in the Saskatchewan capital, as Benemaurer Day, and had suggested this date in the Griffing, coach of Regina All-Service Roughriders.

The first of the two-game total point series will be played here Saturday.

Head Resigns  
LOS ANGELES, Nov. 4.—(AP)—Without explanation, Wilbur C. Tuttle resigned Thursday as president of the Pacific Coast Baseball League and in letters to eight directors said he wished to be relieved of his duties Nov. 15.

His action came after many weeks or rumors that he would not be at the league's helm next season, and there appeared little doubt that his resignation would be accepted. Clarence (Pistol) Rowland, president of the Los Angeles club and member of the directorate, said: "Of course I can't speak for the directors, but will vote to accept his resignation. There's no use holding a man on a job he doesn't want."

Rowland added he hoped the next president would serve as a full-time basis. Tuttle, a prolific writer of western fiction, has worked under an agreement where by he devoted only part-time to his baseball duties.

NEW YORK, Nov. 5.—(CP)—Frank Boucher, coach of New York Rangers of the National Hockey League, announced Thursday that he definitely will attempt a comeback to the centre ice spot and will play for his club here Saturday night against Chicago Black Hawks.

Manager Lester Patrick predicted the fans will find that in the end, Boucher will be the second-best play maker in the league, shaded only by Bill Cowley of Boston Bruins.

Boucher, veteran of 12 full seasons with the Rangers until he retired to the bench in 1938, recently left wing of last year's Ranger team, and Jack McDonald, right, recently discharged from the Royal Canadian Air Force for medical reasons and a member of the Partridge la Prairie, Man., juniors.

# Edmonton Skiers Elect Officers

For Coming Year

A very successful meeting of the Edmonton Ski Club was held in their cabin on Conover's Hill, Thursday night. Len Holt was elected as the new president for the coming season by acclamation. Len, as he is well known to all club members, is a very enthusiastic skier who originates, holds, and runs the club and has skied at Alta near Salt Lake City.

Other officers named were as follows: Vice-president, Bob Thomson; treasurer, Ken Riverton; and membership secretary, Wilbur Beldman. All will remain in office for another year. Secretary, Violet Hawkes; social convener, Frank Spauld; and ski captain, race convener, Bill Plummer; jumping committee, John Horgan; chairman of discipline committee, Joe Hoyt; and assistants, Neil Godwin and Edith Jamieson; public relations committee, Edith Jamieson; and ski captain, race convener, Bill Plummer.

A vote of thanks was given to Clinton Brown, past president, for his excellent services for the past two years.

All club members are looking forward to the coming winter's activities. The club has cleared the bill of all underbrush and is ready for the first snowfall. Memberships are now available for the winter and can be obtained from any member or the ski cabin.

# Minor Baseball Faces Problem

BALTIMORE, Nov. 5.—(AP)—Cal. Larry McPhail, former general manager of the Brooklyn Dodgers, said Thursday he expects that major league and double A baseball will operate next year, "but beyond that I am not optimistic." He said "the old allies really face tough sailing."

Other officers named were as follows: Vice-president, Bob Thomson; treasurer, Ken Riverton; and membership secretary, Wilbur Beldman. All will remain in office for another year. Secretary, Violet Hawkes; social convener, Frank Spauld; and ski captain, race convener, Bill Plummer; jumping committee, John Horgan; chairman of discipline committee, Joe Hoyt; and assistants, Neil Godwin and Edith Jamieson; public relations committee, Edith Jamieson; and ski captain, race convener, Bill Plummer.

# Tami Mauriello 5 to 9 Favorite Tonight's Fight

NEW YORK, Nov. 5.—(AP)—Tami Mauriello and Lee Savall, a couple of fighters who have been riding up and down the heavyweight elevator the last year or two, bring boxing back to Madison Square Garden tonight for the first time in a month.

Tonight's 10-rounder is their second encounter. Just a year ago, Tami took a decision from Lee, but that time, the New York youngster had to come out of the fight. Since he's already once-up on the score card, Tami has been installed as a 5 to 9 favorite.

On the other hand, Tami was out of action for four months until last summer when he was knocked out of his normal 180. Since then he has been working hard to get back to his normal weight and to come home galloping and to the scene with Tami at one.

# Large Increase Jamaica Betting

NEW YORK, Nov. 5.—(AP)—New York's regular 190-day racing season, which ended Wednesday with the finale of the Empire-Jamaica season, saw total wagering surpassing a similar 1942 campaign by more than \$100,000. The increase was approximately 63 per cent.

apiece. Lee had a dozen bouts in the last year and lost only once in Eddie Blinn, whom he since has defeated.

There are \$20,000 in advance sales in the 120 and promoter Mike Jacobs, who is supposed to see a pot of \$40,000.

## Allies Complete Plan of Attack Against Japan

By Lyle C. Wilson

Exclusive to The Edmonton Bulletin  
Copyright 1943 by British United Press

WASHINGTON, Nov. 5.—President Roosevelt said today that a British-American-Chinese conference in Chungking had reached complete agreement on joint operations to be carried out in the forthcoming continental campaign against Japan.

Describing the results of the conference as had news for Japan, the President said the meeting brought together Lord Louis Mountbatten, supreme commander for Southeast Asia; Lt.-Gen. Joseph W. Stilwell, Maj.-Gen. Claire Chennault, and Lt.-Gen. Brereton B. Somervell, commander of the American air supply forces.

These men, the president said, conferred with Generalissimo Chiang Kai-shek and his associates, army leaders, and the results were extremely successful.

He said at his news conference there was complete agreement by the three nations on the method of handling the continental campaign against the Japanese in the Far East.

Explaining that Somervell already has returned to Washington, Roosevelt said his presence at the Chungking meeting obviously concerned the Japanese for the forthcoming operation.

As for airfield developments of the foreign minister meeting in Moscow, Mr. Roosevelt said it would lead to other meetings but he declined any knowledge of new developments on the proposed airfield of himself, Generalissimo Churchill and Premier Stalin.

## Rome Buildings Mined by Nazis

NEW YORK, Nov. 5.—AP—Premier Marshal Pietro Badoglio's Bari radio said in a domestic broadcast yesterday that refugees from Rome report the Nazis have mined all important buildings there and had started that they have mined only the memory of Rome.

"German sappers have mined all the public and private buildings," said the broadcast, recorded by United States government broadcasts.

"Tons of explosives have been placed under all ministries, bridges, hotels and the aqueduct that supplies water to the city also have been mined."

## Edmonton Shrine Club Elects New Officers for Coming Year

Members of the Edmonton Shrine Club Thursday night elected Thomas Dancer, prominent Edmonton business man, as their president for the ensuing year.

The election was made at the annual meeting held in the Edmonton club which was attended by Al Ahlrich, President George A. Loomis, Calgary, and Shriners from all parts of Alberta, and many American Shriners from stations in Edmonton.

Plans for the forthcoming year were discussed, and it was decided to hold the annual ladies' night dinner and dance in the Madonnas on Friday, Nov. 26. Details of other functions for the year will be announced later.

Mr. Dancer succeeds J. Harry Williams, who held the office of president of the Edmonton Shrine Club last year.

## 100,000 Casualties In Mediterranean

Exclusive to The Edmonton Bulletin  
Copyright 1943 by British United Press

WASHINGTON, Nov. 5.—Casualties in the Mediterranean theatre since the allied landings in North Africa a year ago Nov. 7 have been approximately six to one in favor of the Allies, Secretary of War Henry L. Stimson said yesterday.

The losses of the British force, including the Canadian, have been somewhat higher than American, Stimson said at a press conference. Total Allied casualties in the Mediterranean up to the present are slightly under 100,000.

American losses in the Mediterranean up to Nov. 29 totalled 31,226. These included 5,329 killed, 17,625 wounded and 7,968 missing. Of the missing were taken prisoner, Stimson said.

Axis losses in the same area were approximately 40,000 killed, 80,000 wounded and an official count of 198,353 prisoners.

## Farm Debt Act Soon Operative

OTTAWA, Nov. 5.—(CP)—Conferees between finance department officials and private attorneys-general concluded yesterday with the hope that new administration machinery for the Farmers' Credit Arrangements Act will be operative by Dec. 1.

The new machinery will be operated by the lower court and will be heard by district and county judges, Stimson said.

At a joint meeting yesterday, the federal and provincial officials conferred with high court judges of the three provinces who are expected to act as appeal judges when a ruling or a creditor appeals from a ruling by the lower court.

The new machinery was Chief Justice Evans A. McPherson, Manitoba; Chief Justice J. T. Brown, Saskatchewan; and Mr. Justice W. H. Brown, Alberta.
